

**A World of Paper.  
Paper for the World.**

# Our Journey

Founded in 1989 with roots tracing back to the early 1950s, we have grown from a small paper trading venture in Kolkata to one of India's premier paper importers and distributors. Our path has been long, winding and exciting. We have a long way left to go.

1952

Sri Satyanarayan Goenka begins a paper business in Kolkata

1960

Parmanand Ji Goenka joins and establishes key partnerships with paper mills like Titagarh and Bengal Paper

1980

We become the exclusive pan-Indian supplier of cheque paper for SBI, UCO and UBI

1990

Umesh Goenka joins, setting the stage for expansion

1993

Sri Satyanarayan Goenka receives a Lifetime Achievement Award from President Pranab Mukherjee

1997

First container import from Indonesia's Sinarmas Group

2003

We venture into specialty and filtration papers

2014

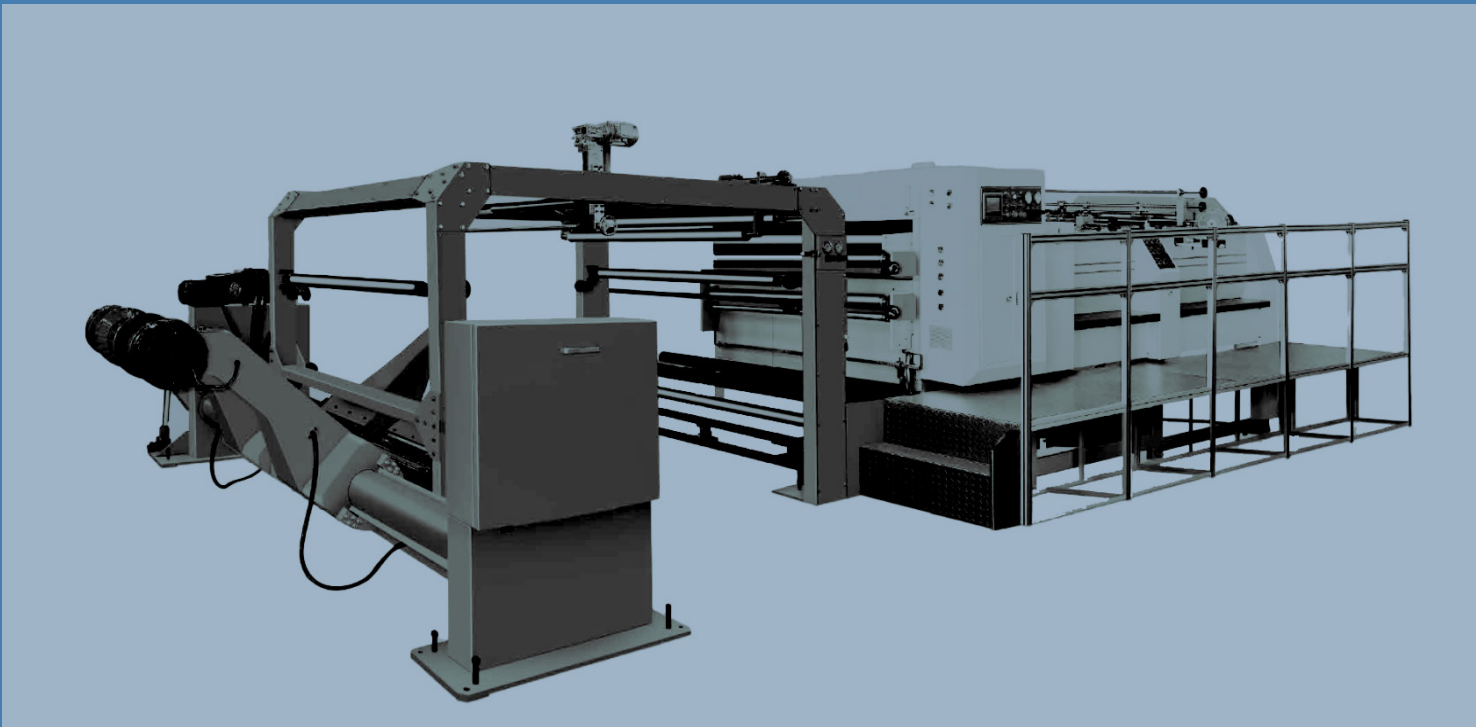

Parmanand Ji Goenka receives Lifetime Achievement Award

2019

100,000 sq ft modern warehouse established

2024

High-speed precision cutting facility introduced, and we expand into gumming sheets and packaging

# Our Vision

Our vision reaches beyond business towards a better world. We aim to lead responsibly in the global paper industry, setting standards for sustainability, integrity, and growth that respect both our industry and the planet.

## Our Infrastructure

100k sq. ft.

Office space, for seamless global operations.

1 Million+

Tons of paper delivered in our lifetime.

55 years

Of building legacy and growing with the paper industry

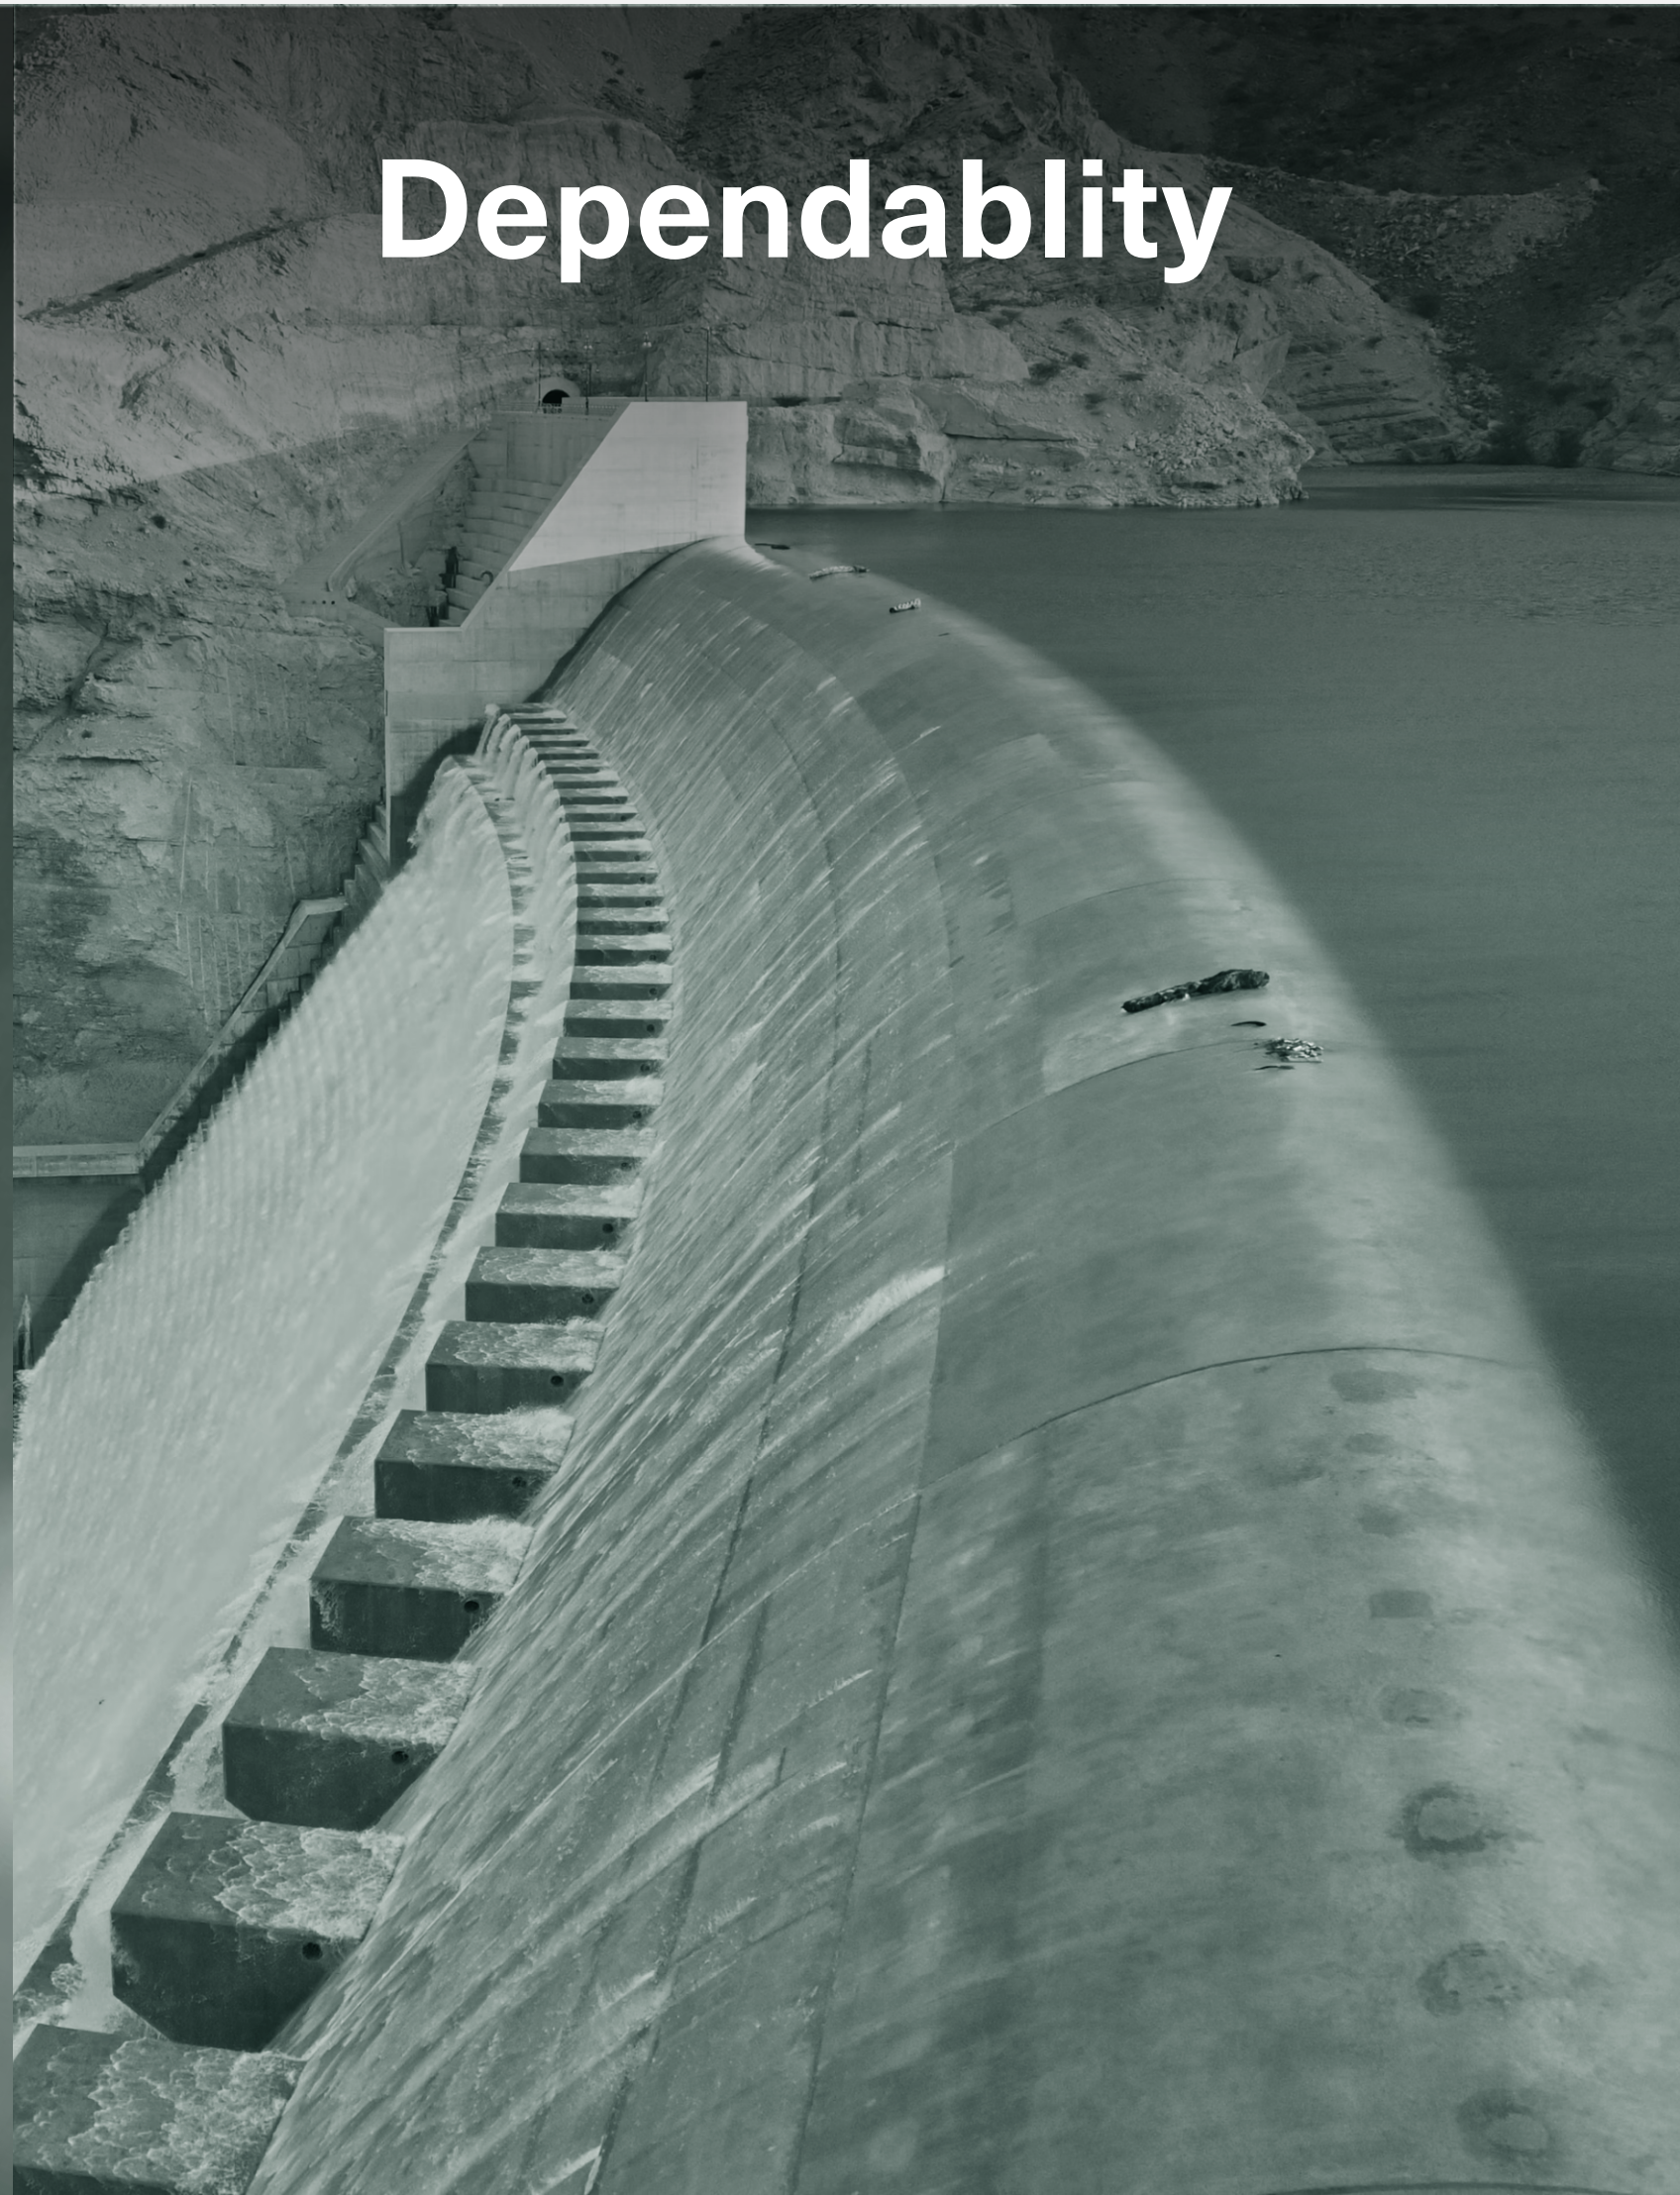

## Our Core Values

**Integrity**

**Dependability**

**Relationships**

# Our Network

We collaborate with global paper giants, manufacturers and channel partners, providing multifaceted solutions across the world.

## **Processed by our Servo Precision High-Speed Sheet Cutter**

Our reel-to-sheet equipment sets a new benchmark in precision and efficiency for converting paper and board rolls into sheets.

### **Tailor-Made Sizes**

Customisable sheet sizes to meet your specific requirements with accuracy.

### **Quick Turnaround**

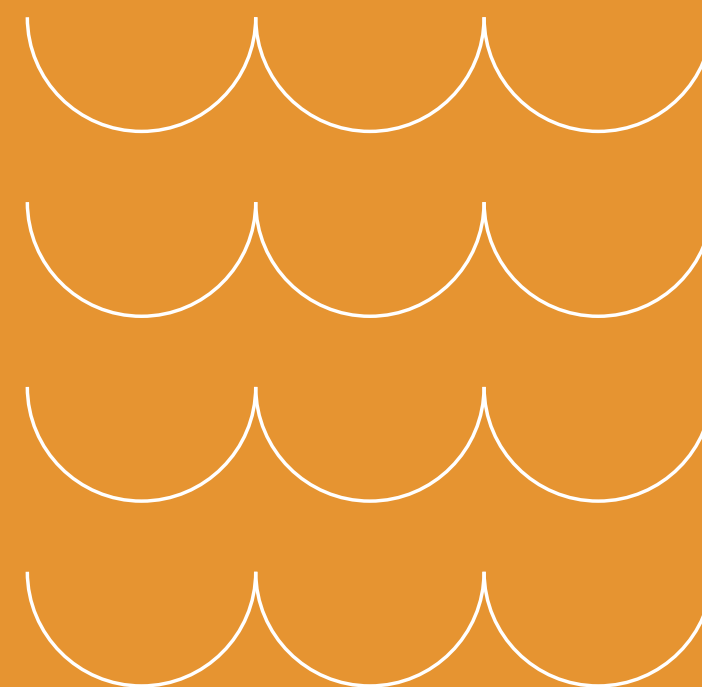

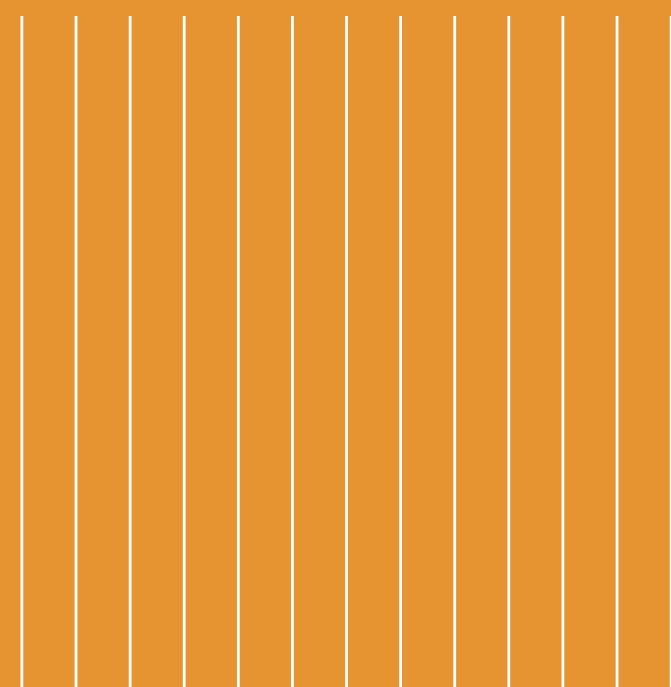

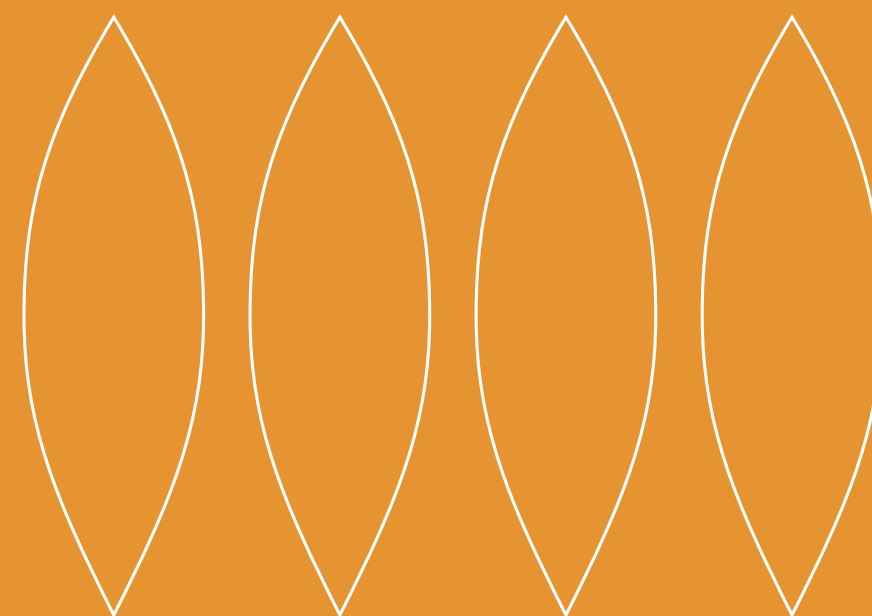

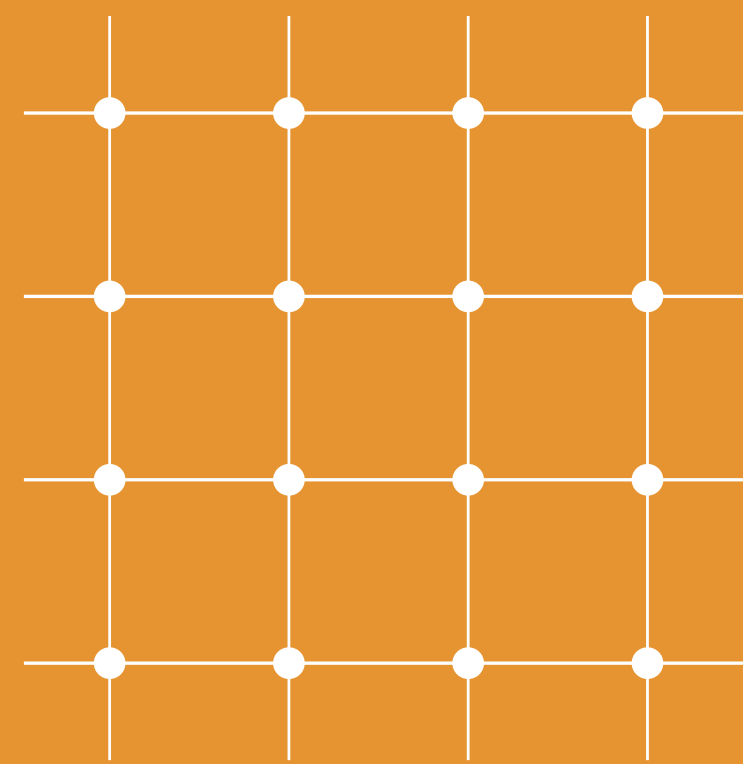

High-speed operations enable faster processing, perfectly suited for tight production schedules and just-in-time delivery.

### **Low Wastage**

Precision cutting reduces material wastage, optimising costs and sustainability.

# Speciality paper solutions crafted for unique industry applications

# Speciality paper solutions that elevate your product from material to masterpiece

Bring your product vision to life with high-quality and high-precision speciality papers that meet every requirement. Choose from our range of products, crafted to seamlessly support your production and ensure exceptional end products.

## Crafting the perfect tea experience with paper

In the long journey of tea from mountain slope to teacup, Ganpati Enterprises is proud to partner with tea brands worldwide, playing a vital role in shaping the tea experience.

We supply the highest quality premium filter paper produced by Ahlstrom Corporation, made with revolutionary technology, designed specifically for the global tea industry.

We're proud to be supplying this paper across the world, with India, Nepal, Bangladesh and Sri Lanka being prime markets. A large portion of the tea—whether it's called chiyaa, cha, thé, or chai—in those countries comes in teabags packed with our high quality paper

Our food-grade filter paper stands out because of its...

Superior infusion

Teabags packed with our paper give the perfect steep every time, with the full bodied flavour and aroma of the tea coming through, without any particles.

Durability

Our paper is heat-resistant, tear-resistant and built to withstand the rigours of the tea brewing technique, maintaining the strength perfectly in hot water.

Premium quality

Our filter media is made of high-quality, food-safe fibers made with advanced technology, sustainable fibres, with fibre blend variants.

Consistency

Brew it just how you like it because our paper is designed for uniform performance and reliable infusion for the same premium experience every time.

The technical details

Ahlstrom paper is widely regarded in the tea industry as being the pinnacle of quality and innovation. Explore the different kinds of Ahlstrom paper made for the tea industry.

Non-heatseal paper

The most widely used high-performance paper for tea bags, designed specifically for stitching or crimping applications.

Heatseal paper

A modern, high-speed paper solution featuring a specialised heat-sealable coating, tailored for efficient tea bag production.

PLA®

This is the industry’s first spun bond web produced from a renewable biopolymer, poly lactic acid or PLA that is 100% biodegradable and compostable.

# Providing end-to-end packaging solutions that enable endless cups of tea

We deliver comprehensive packaging solutions for teabags, combining innovation with functionality, sustainability, and aesthetic appeal. We provide everything you need to package and present your tea.

## Filter paper

High-quality, food-grade, specialty filter paper crafted for optimal infusion, tear resistance, and consistent quality for an exceptional tea-drinking experience.

## Teabag tag

Custom-printed tags that showcase your brand's identity while meeting high durability and safety standards.

## Teabag envelope

Pre-branded, fully finished, and printed envelope, ready for the shelf. Crafted to preserve the tea's aroma and freshness while enhancing visual appeal.

## Teabag thread

Durable, food-safe thread designed for reliable strength, and user-friendliness. Their innovative design enables faster production while maintaining exceptional durability.

## Aluminum staple wires

Food-grade aluminum wires designed for reliable and secure stapling in tea bag manufacturing.

## Custom machinery

Advanced machinery solutions for tea bag production and packaging that integrate seamlessly with our materials.

## Facilitating in-house packaging solutions for tea brands

We empower tea brands with end-to-end packaging solutions, which extends to helping them procure equipment and raw material.

This gives brands the flexibility and materials to package their product with full control, while streamlining production, managing operations in-house, and maintaining their standards of quality and consistency.

# Paper will shape our every tomorrow

As stewards of one of Earth's few infinitely renewable resources that has a sustainable, circular life cycle, we respect and revere paper's vital role in every single industry and community worldwide.

Every step we take and every choice we make is dedicated to sustainable growth for ourselves, our partners, and the world around us. A greener future for generations to come shall be driven by paper in its infinite wonder.
